To whom it may concern

This letter serves as confirmation that the Spanish translation of the Consent “Short Form” provided by the Children's National Medical Center's (CNMC) IRB is an accurate translation of the English “Short Form”.

The investigators must only add the study title, study ID and the Principal Investigator’s contact information to the “Short Form” and not alter the content of the form in any other way. The “Short Form” must be approved (and stamped, if applicable) by the Reviewing IRB prior to use.

If you have questions, please contact the CNMC Office for the Protection of Human Subjects at 301-565-8452.

Sincerely,

[Signature]
